EDUCATION

Bennett University

Expected-May 2026

- B.Tech Computer Science Engineering School of Engineering | CGPA: 7.47/10.0

SASI Educational Institute

June 2018 - May 2021

- Class XII SASI Educational Institute | Score: 92.1%
-

PROJECTS

TriviaTime | HTML, CSS, JavaScript, JSON

- A platform for testing Python knowledge with interactive quizzes and advanced features.
- Includes leaderboards, difficulty levels, and tracks user progress.
- Responsive design with HTML, CSS, and JavaScript, with JSON for quiz data management.

LearnHubPy | HTML, CSS, JavaScript, Node.js, MongoDB

- A comprehensive platform for Python tutorials, coding challenges, and resources.
- Includes hands-on exercises to help users practice and improve Python skills.
- Built with React for navigation, supported by Node.js and MongoDB for backend functionality.
- Offers real-time feedback and tracks user progress for an engaging learning experience.

CodeSphere | React, Node.js, MongoDB, JavaScript | Planned for 2025

- A unified platform integrating TriviaTime, LearnHubPy for a complete Python learning experience.
 - Includes user authentication with login and registration features.
 - Focuses on smooth navigation with React and efficient data management using Node.js, MongoDB.
-

CERTIFICATIONS

- Object-Oriented Data Structures in C++ | Coursera
 - Data Structures | Coursera
 - Using Git for Distributed Development | Coursera
 - Supervised Machine Learning: Classification | IBM
-

SKILLS

- **Technical Skills:** C++, Python, JavaScript, HTML, CSS
- **Languages:** English, Telugu, Hindi
- **Web Technologies:** Node.js, React.js(basic), MongoDB, Bootstrap(basic)
